FOREWORD

This Indian Standard (First Revision) was adopted by the Bureau of Indian Standards, after the draft finalized by the Surgical Instruments Sectional Committee had been approved by the Medical Equipment and Hospital Planning Division Council.

This standard was first published in 1986. It has been revised so as to retain the requirements in respect of sizes, shape and dimensions only, as the common specification aspects for these types of forceps are covered in IS 3642 (Part 1) : 1990 'Surgical Instruments—Specification: Part I Non-cutting, articulated instruments (*second revision*)' which would serve as a horizontal standard for vessel forceps. Accordingly, this standard takes the form of a vertical standard and is intended to be used in conjunction with IS 3642 (Part 1) : 1990.

For the purpose of deciding whether a particular requirement of this standard is complied with, the final value, observed or calculated, expressing the result of a test, shall be rounded off in accordance with IS 2 : 1960 'Rules for rounding off numerical values (*revised*)'. The number of significant places retained in the rounded off value should be the same as that of the specified value in this standard.

Indian Standard

SURGICAL INSTRUMENTS — VESSEL
FORCEPS, DE BAKY'S PATTERN —
SIZES, SHAPE AND DIMENSIONS

(First Revision)

1 SCOPE

This standard specifies the sizes, shape and dimensions for De Bakey's pattern vessel forceps used in general surgery.

2 REFERENCE

The Indian Standard IS 3642 (Part 1) : 1990 'Surgical Instruments — Specification: Part 1 Non-cutting, articulated instruments (second revision)' forms a necessary adjunct to this standard.

3 SIZES, SHAPE AND DIMENSIONS

3.1 The sizes, shape and dimensions of the De Bakey's pattern vessel forceps shall be as shown in Fig. 1.

3.2 Joint

The joint of the forceps shall be semi-block type conforming to 13.1 of IS 3642 (Part 1) : 1990.

3.3 Serrations

The serrations shall be atraugrip jaw type, conforming to Section 2 of IS 3642 (Part 1) : 1990.

Standard Mark

The use of the Standard Mark is governed by the provisions of the *Bureau of Indian Standards Act, 1986* and the Rules and Regulations made thereunder. The Standard Mark on products covered by an Indian Standard conveys the assurance that they have been produced to comply with the requirements of that standard under a well defined system of inspection, testing and quality control which is devised and supervised by BIS and operated by the producer. Standard marked products are also continuously checked by BIS for conformity to that standard as a further safeguard. Details of conditions under which a licence for the use of the Standard Mark may be granted to manufacturers or producers may be obtained from the Bureau of Indian Standards.
